

**I. AMENDMENTS TO THE CLAIMS:**

Kindly amend claims 6 and 9, and add new claims 11 and 12 as follows.

The following claims will replace all prior versions of claims in the present application.

**Listing of Claims:**

Claims 1-5 have been cancelled.

6. (Currently Amended) A band-shaped strap, ~~in particular a watch strap,~~  
including:  
\_\_\_\_\_ at a first end a first strand provided with a buckle and tongue and at a second end a  
second strand through the thickness of which holes pass, intended to be attached in a  
removable manner to the first strand by engaging in the buckle, each strand being formed of a  
continuous flexible band, the buckle including two lateral branches each provided with a  
hole, a removable transverse bar the ends of which are arranged for engaging in the holes of  
the branches, and a tongue having an eyelet part rotatably engaged on said bar, the first  
strand having an end orifice arranged transversely close to a free end of the strand, for  
receiving said buckle-bar, and an end notch extending from said free end to beyond the end  
orifice to receive the eyelet part of the tongue,

wherein the first strand includes a plurality of additional transverse orifices distributed  
over a certain length of the strand from the end orifice and each associated with an elongated  
hole passing through the thickness of the strand and intersecting with the associated  
transverse orifice, such that the first strand can be shortened by cutting along a transverse  
section passing through any one of said elongated holes, the transverse orifice associated with  
the hole becoming a new end orifice for receiving said buckle-bar.

7. (Previously Presented) The strap according to claim 6, wherein said transverse section associated with each elongated hole is marked by a groove on at least one face of the first strand.

8. (Previously Presented) The strap according to claim 6, wherein each elongated hole extends from said associated transverse section to beyond the associated transverse orifice.

9. (Currently Amended) The strap according to claim 6, wherein the strands are made of synthetic material, ~~particularly of polyurethane.~~

10. (Previously Presented) The strap according to claim 6, wherein the first strand is a moulded part.

11. (NEW) The strap according to claim 6, wherein the strands are made of synthetic material comprising polyurethane.

12. (NEW) The strap according to claim 6, wherein the strap is a watch strap.
